An Unjust Subsidy

Prairie wheat used for domestic consumption is sold at the International Wheat Agreement price. Our Company believes it should be sold at the higher Class II price, for domestic wheat does not come under the International Wheat Agreement. It is unjust, we think, to make prairie farmers subsidize all the people of Canada with cheap wheat.

Take the famous TRIANGLE TOUR

on the PACIFIC COAST

By train via Jasper to Prince Rupert, through northern B.C.'s snow-capped mountain grandeur, along the Skeena river—then by Canadian National Steamship—a 2-day cruise—through the famous Inside Passage south to Vancouver. Then by rail to Jasper passing mighty Mount Robson.

That's the famous Triangle Tour, with stop-overs wherever you wish—at Jasper, Prince Rupert, or Vancouver, or all three. What a holiday trip—and less expensive than you'd think!

Full information from any CNR agent.

School Children Present Entertaining Concert

On the evening of June 21, the parents of the children in grades 2 to 5 were invited to the auditorium of the Irma School as guests at a concert and demonstration prepared by these youngsters and their teachers, Mrs. Glasgow and Mrs. Chase.

More than a hundred parents were present as Mrs. and Mrs. Simonson of Wainwright. The auditorium had been beautifully decorated with rosettes and streamers of mauve, yellow and green crepe paper, white flowers and potted plants gave the stage a very festive air.

The well planned program was smoothly executed, showing the results of much practice and preparation. There were recitations, dialogues, choruses and some very fine examples of choral speech. There was a summary of the work done in social studies and a graphic presentation of the natural resources of our country. This two hour program was a revelation to the parents who were most happy to see the children receiving and making the most of a good, well balanced schooling.

This worthwhile occasion was brought to a close with a fine lunch capably served by the members of grade 4 and 5.

Easterly Echoes

Mrs. E. Fenton visited her daughter Elfrida at Lamont and together they took in the rodeo at Edmonton.

Mrs. R. S. Fitzpatrick and son George with Mr. T. Bacon motor-ed to Holyoke, their former home.

week or so at the home of Mrs. Alf Bacon. She is proud to announce she has a new baby sister and her parents are Mr. and Mrs. Frank Bacon.

Mrs. W. Dootson has returned from visiting relatives and friends at the coast, among these were Mr. Leslie Elliott, Mrs. Edith Elliott, Mr. and Mrs. T. Sanders, Mr. and Mrs. E. Sanders, Harold and Violet, Mr. and Mrs. A. H. Burton and Mrs. Noonan (Gwen). These old friends are all enjoying life and wish to be remembered to all here.

Miss Leona Elliott of Abbotsford B.C. is holidaying at the Dootson home.

The FUA picnic at Passchendale last Friday was the usual success. There were six football teams entered with the results being: Passchendale over Gilt Edge; Strawberry Plains over Irma; and Albert over CNR. In the second round Passchendale had a bye and Albert won from Strawberry Plains. In the finals Albert in their third straight game, was forced to bow out to Passchendale. Horse-shoe was well contested and a big dance in the evening brought a successful day to a close.

Jarrow News

Mrs. Clarence Lovig and son of Edmonton have been visitors at the Stan Bridgeman home for a few days.

Mr. Bert Yakes accompanied by Mr. and Mrs. Harold Barker left for the coast over the week-end. Mr. and Mrs. E. Wade and family of Viking visited at the J. B. Campbell home on Sunday.

The Jarrow-Batts ladies were royally entertained at the manse last Friday afternoon by the members of the Metropolitan Garden Club. The Misses Reid and Cairns were both there and Miss Cairns gave demonstrations of both huck-a-back and smoking. Soon everyone was busy working out their individual patterns. The afternoon passed all too quickly and after a most delicious lunch it was home time but all left feeling that it was time profitably spent.

Stan Bridgeman and K. B. Lingey were in the city last week receiving medical treatment.

Glen-Coa Gleanings

Mr. and Mrs. P. Skarsit and three children of Vancouver have been visiting relatives and friends in our district this past week. They are special guests of Mr. and Mrs. S. Nilsson.

Miss Solveig Steffensen arrived home from the coast the quick way—by plane—last Sunday.

Mr. Ola Raasak has been a patient at Wainwright hospital of late.

Miss Norma Likness had an operation for appendicitis on Wednesday. A speedy recovery is wished by her many friends.

Sharon Ladies Aid will meet at the home of Mrs. N. Fluevog on July 5.

DONATIONS

Further donations to the Special Fund in memory of Gordon Whidden: Cliff and Peggy Smallwood; Mr. and Mrs. Ludwig Holling; Mr. and Mrs. Norman Overbo; Mr. and Mrs. H. L. Black.
To the WMS: Mr. and Mrs. R. L. Simmerman.
To the CLC: Mr. E. R. Erickson.
To Cancer Fund: Steve and Christina Fucsko.

Card of Thanks

We wish to extend our most sincere and heartfelt thanks to all the relatives and friends for the lovely flowers and acts of kindness which helped so very much in our time of sorrow. With sincere appreciation.
—Helen Whidden and family.

Pupils Donate To Junior Red Cross

Students received a request from the Junior Red Cross, Calgary, for a donation for School Books for Children of Europe.

Grades 4-5-6 and 7 placed jars in each of the school rooms for voluntary donations. \$11.74 was donated by grades 1-2-3, 4 and 5, 6 and 7 and high school grades 10, 11 and 12.

Thank you all very much for your co-operation. This sum has been mailed to the Junior Red Cross. — (Mrs.) M. J. Chase.

Kinsella News

A social evening was held in the Hall on Wednesday evening, June 20 in honor of Mr. and Mrs. D. Corbett, the retiring postmaster and his wife. A large number of friends were present and a short program was enjoyed, after which Mr. and Mrs. Corbett were presenter with travelling bags by Mr. J. F. Murray on behalf of the community, for which Mr. Corbett suitably replied. This was followed by the singing of "For They Are Jolly Good Fellows." The evening was brought to a close by a bountiful lunch served by the ladies of the community.

Mr. Gayler and the high school students held their end of the term picnic on Wednesday at Camp Lake.

Mr. and Mrs. Harold Boyd of Edmonton were visiting relatives here recently.

Miss Doreen Boyd, nurse in training at the Vegreville hospital, was visiting at the home of her parents.

Mr. and Mrs. J. M. Holt and family were week-end guests at the home of Mr. and Mrs. E. Mark.

The main line gas camp men moved into Kinsella to lay the new lines.

The sympathy of the whole community is extended to Mrs. Jack-owich and family on the sudden death of Mr. Jack-owich.

Pamela and Billy Lancaster celebrated their birthdays by entertaining their friends to a party on Friday.

The W.I. conference will be held in Kinsella July 5 at 10 a.m. All ladies of the community are cordially invited.

The picture show on Friday is a double feature. King of Dodge City and The Streets of New York.

W.I. to Hold Conference In Kinsella July 5

The Wainwright Constituency Conference of the Alberta W.I. will be held in the Community Hall, Kinsella, July 5. The handicraft will also be displayed in the hall. Have it there by 10 a.m. for placing and judging.

Registration, 9:30 to 10 a.m. and lunch will be served at noon by Kinsella and Quinte W.I.'s.

Members and their friends plan to attend and enjoy yourselves. An interesting program awaits you.

All roads lead to Kinsella and the Conference.

Tour Wainwright

On Tuesday, June 26, four cars driven by Mesdames Symington, Anquist, Glasgow and Smallwood journeyed to Wainwright with 25 youngsters comprising grade 2 and 3 of Mrs. Glasgow's room in order that these children might make an industrial tour of that fair city.

Their first port of call was the Divisional Office where they passed the time of day with Messrs. Simonson and Griffiths and were given a tour through the school headquarters, library, health nurses office, work shop, etc. The next stop was Davidson's Dairy where they saw the methods used in pasteurizing and cooling milk. Before leaving this interesting place, each child received a reveal which was much appreciated. They proceeded to inspect the arena. Mr. Iverson kindly allowed the group to eat lunch in this spacious building. After lunch our tourists drove around Wainwright and viewed it from all quarters before ending up at the office of the Star-Chronicle where Mr. D'Albertson very kindly showed them over his plant and let them see the printing of this week's issue of the Star-Chronicle. The children enjoyed this very much and voted the newspaper business the most interesting part of their tour. There was just time to go over the lower rooms of the new Wainwright school before returning home to tell mother and dad all about their many adventures.

Card of Thanks

We wish to express our thanks and gratitude to our friends and neighbors for their sympathy and kindness during our recent and bereavement.—Mr. and Mrs. H.A. Whidden and family.

Southern Sayings

Mr. Stan Hill of Vancouver is visiting with his folks Mr. and Mrs. F. Hill and family for a month's leave from which he'll leave for the east coast to take up further training.

Mr. Gerald McShan and family of Hardisty, Mr. and Mrs. H. Swanson and family of Sedgewick and Mr. Chester Barthlow were all Sunday visitors at the J. Jackson home.

Mr. and Mrs. Alex Cairns and family were visitors to Lougheed a week ago.

Mr. and Mrs. E. Tomlinson and family were visitors to Ryley last week.

FOR SALE—Findlay Condor range like new. Also seamstress Rotary sewing machine. Apply Mrs. M. Reitan. Phone 413. 2229p

SELLING—3 year old filly, Kentucky and quarter horse breeding, gentle and quiet. Apply R. L. Rohrer, Irma. 29p

LOST—one hub cap for Plymouth car between Irma and Hardisty. H. L. Black.

FOR SALE—good milk cow, fresh two months. Apply Wilmer Rae. 29p

FOR SALE—Kitchen Range Stove and two burner hot plate in new condition. Also coal heater, good condition. Mrs. R.D. Allen, Irma. 29-3p

Northern Nuggets

Constable Lloyd Johnson of the RCMP is visiting at the home of his parents Mr. and Mrs. H. Johnson. He is still stationed at Swan River, Man.

Mrs. E. A. Cox and daughter arrived this week to visit at the Leigh Currie home.

Mr. Allen Hardy and Mr. and Mrs. Harry Thomas of Mannville left on Thursday for Saskatoon. They are attending the conference of the Western Canada Association of the Deaf.

Conn. J. M. Hardy left for his home in Winnipeg after visiting friends and relatives here.

Don't forget the W.I. picnic at the grounds on July 13. A dance will follow at Albert School. This picnic is sponsored jointly by the W.I. and the Albert ball team.

High School Students!

Are you planning to go to UNIVERSITY? THE UNITED CHURCH OF CANADA needs young men and women to train for full time Christian Service. Would you like to be a Christian Minister?

Employment For The Disabled

GREAT PROGRESS HAS BEEN MADE in recent years in fitting physically handicapped people to accept gainful employment. As was the case in many other matters, the needs arising from the many men who received permanent injuries in time of war brought about more intensive studies of this problem and the introduction of new methods of treatment and of fitting physically handicapped persons to earn all or part of their own living. These people benefit greatly from being able to accept employment, and in most cases there is improvement in their physical and mental health, as well as increase in self confidence and self esteem.

Many Develop Great Skill

It has been found that the benefits are by no means all on the side of the person who is employed in such cases. Many people with physical handicaps have developed highly specialized skills which are very valuable in their field. Studies of the question of employing persons with physical handicaps have resulted in knowledge as to how to best use the skills of those who are partially disabled, and employers are becoming increasingly interested in giving them suitable work. It is found in many cases that partially disabled people bring unusual enthusiasm and interest to their work.

Is Need For More Interest

In view of the growing shortage of skilled labor in Canada at this time, it has been pointed out that more attention should be paid to the advantages of employing partially disabled workers. The Department of Labor announced recently that the Special Placements Division had found employment for 3,028 physically handicapped Canadians in the first three months of this year. At that time there were 8,831 partially disabled persons available for employment, which indicated a need for greater interest in this matter. Great advances have been made in fitting disabled persons to take employment and it is to be hoped that more opportunities will be opened to them.

Lethbridge Fast Growing City

LETHBRIDGE, Alta.—One of the fastest-growing cities in Western Canada, Lethbridge has had an exhaustive report prepared on its past and present to help it cope with future growth.

Prepared by Gerald A. P. Carrothers of the University of Manitoba, the report comprises a 155-page booklet, 32 maps, and three groups of mounted photographs.

The report reveals that the population of Lethbridge has increased by 27 per cent, in the last four years, compared with 21 per cent. for Edmonton and 13 per cent. for Calgary. Mr. Carrothers predicted that by 1970, the minimum population of this southern prairie city would be 29,000, while the maximum to be expected would be 70,000 persons. Lethbridge's present population is about 20,000.

Nearly half of the city's homes, or 41 per cent, have been built in the last 10 years. Another 27 per cent. of Lethbridge dwellings are more than 40 years old.

Prepared to aid the town planning commission, the report reviews location and direction of growth, parking problems, recreational areas, conditions of buildings and natural resources.

To Build Large Pulp Mill In Alberta

EDMONTON.—Lands Minister N. E. Tanner announced that a pulp mill, to cost between \$3,500,000 and \$5,000,000, will be built at Yates, Alta., five miles east of Edson and 125 miles west of Edmonton.

An agreement has been signed by the Alberta government and North-western Pulp and Power Ltd. Groundwood pulp, a raw material in the manufacture of newsprint, will be made at the plant.

TAKING BIG IMMIGRATION

LONDON.—Australia will take at least 180,000 immigrants this year, Sir Douglas Copland, vice-chancellor of the Australian National University, said.

POPULATION RISE

JOHANNESBURG.—South Africa's European population has risen by 90,575 through immigration during the 23 years from 1925 to 1947, according to a recent report.

Be content—but never satisfied.

Mrs. Guy Lombardo Compares Blue Bonnet — Always Puts It On!

Here's a hint from Mrs. Guy Lombardo. Compare Blue Bonnet Margarine with any spread at any price. Like the band leader's wife, you'll love Blue Bonnet's fresh, sweet flavor! Rich nutritional! Real economy! Blue Bonnet is Canada's fine quality all-vegetable margarine. Use Blue Bonnet in cooking, on vegetables, as a delicious spread. Buy Blue Bonnet and get "All 3" — Flavor! Nutritional! Economy! — all in one! Blue Bonnet margarine is sold in two types — regular economy package with color water and also in the famous Yellow Quik bag for fast, easy color.

Funny and Otherwise

A man was approached by an insurance canvasser and asked if he was insured against fire.

"Yes," said the other. "Burglary?" "Well, yes."

"Are you insured against floods?"

"Floods," said the other, showing interest at last. "How do you start floods?"

Amos Tash—What is the difference between a church bell and a politician?

High Brow—One peels from the steeples—the other steals from the people.

They say that the reason more people are killed in automobile accidents than in train wrecks is that the engineer never tries to hug the fireman.

Golf Pro: "How the ball?" Fellow: "Sure. I see it, but why the baby talk?"

"Buddy, couldn't spare a dime?" "No, but come along and I will buy your breakfast."

"Heck I've got three breakfasts now trying to get a dime!"

Gardener: "This is a tobacco plant in full flower, madam."

Dear Old Lady: "How very interesting! And how long will it be before the cigars are ripe?"

City Man: "I want to get back to New York on as late a train as possible."

Ticket Agent: "Well, the 10:55 is generally as late as any of 'em."

Sunday School Teacher: "Who can tell me anything about Ruth?"

Johnnie: "He made sixty home runs one season."

Doctor: "I advise you to take a hot bath before retiring. But I won't be retiring for another ten years."

A man neglected his account with his landlady for months. Finally he found this note among his clean clothes:

"Dear Sir,—You have owed me three dollars four months. If you do not pay the whole by next week, I will put too much starch in your collar.—Cordially, Mrs. Smith."

"You're looking bad, old man. What's the trouble?"

"Domestic."

"But you always said your wife was a pearl."

"So she is. It's the mother-of-pearl that's the trouble."

After all is said and done, more is said than done.

A fellow was shaving in the open air when one of his friends came along.

"Do you always shave outside?" the friend inquired.

"Of course," the chap answered, "do you think I'm fun-lined?"

"Well, well, old chap — so you're to be married tomorrow, eh? Splendid! Here's wishing you a long and happy married life."

"Thanks. After all, I don't see why I shouldn't. I served right through the war and never got so much as a scratch."

At 20,000 feet altitude, an airplane jet is only about 40 per cent. effective, compared with 92 per cent. for the old-fashioned propeller.

2998

SIX TONS OF SAND BURIES VICTIM.—When six tons of red, rain-clogged sand collapsed in an excavation he was helping dig at Aldershot, Ont. Andrew Prince, 36, of Hamilton, Ont., was buried alive despite frantic efforts of firemen to rescue him. Fire department used three cylinders of oxygen and two inhalators in a futile effort to revive the father of two children, shown being carried from the scene. Accident was the second fatality of its kind in Aldershot in three days, following a sewer cave-in, in which one man was killed.—Central Press Canadian.

OWEN SOUND GIRL BLOSSOM QUEEN.—Dolores Enderwick, 17, of Owen Sound, Ont., who was chosen "Apple Blossom Queen" before more than 10,000 spectators at Thornbury. The new queen is a talented soloist and won out from 12 other contestants.—Central Press Canadian.

Canada's Soil Is Shrinking

Government Urged That People Should Be Told To Destroy Less Wildlife

OTTAWA.—Canada's soil has been shrinking at the rate of about an inch a century and that's a serious matter, the committee was told by Gordon Higgins (PC—St. John's East).

He said that when Canada was first settled there was topsoil of an average depth of nine inches covering the land. That had gone down to six inches.

Mr. Higgins blamed a lot of this on wastage of Canada's timber resources because trees were essential to healthy soil. He said the government should take every possible step to increase forest conservation measures.

The government should also embark on a publicity campaign to tell the people there should be less destruction of wildlife.

He spoke on resources department estimates.

Scientists have designed a machine which electrically measures the potency of a kiss.

Start Large Pig Hatchery

When Project Is Completed It Will Have A Farrowing Capacity Of 1,000 Sows A Month

DAWSON CREEK, B.C.—An international experiment in hog raising, a \$2,500,000 project, has been started here.

A co-operative pig hatchery, the first unit of the plan now is under construction and when the whole project is completed it will have a farrowing capacity of 1,000 sows a month.

American farmers hold stock in the co-operative and the plan is to market weanling pigs in the United States, especially in Minnesota, Iowa and South Dakota.

Directed by Ted Hawley, veteran hatchery man, the plant here will dwarf many similar hatcheries now being started in the United States.

Dawson Creek, centre of the Peace River grain belt, has plenty of inexpensive feed available from its 10 elevators.

A three-unit plant, each wing will be 44 by 300 feet and three storeys high. The plant will have a conveyor belt to various sections, and an automatic gutter will carry refuse to outdoor pits.

It will be located on a quarter-section of land, tested and found free of disease.

Labor saving devices in the new plant enable one man to handle 250 sows. Plans call for employment of four caretakers and one supervisor for the 1,000 sow unit.

Canadian Egg Production

Canadian net egg production declined three per cent, in 1950, Dominion Bureau of Statistics figures show.

An estimated 333.6 million dozen eggs were produced in 1950, 343.8 million dozen in 1949. Farm production was 305.2 million dozen in 1950.

Farm flocks averaged 24.4 million layers, a five per cent. decrease, but the rate of eggs laid per hundred layers rose from 14,746 to 15,090.

Exports decreased about 28 million dozen, but domestic disappearance rose 14 million dozen.

Poultry meat production was down 14.7 million pounds from 1949's 306.7 million pounds. Per capita consumption of poultry meat was 22 pounds compared with 21.2 pounds in 1949.

7,000th Honeymoon Couple At Falls

NIAGARA FALLS, Ont.—Mr. and Mrs. Raymond Nadeau, of Sandford, Me., on their way home from a three-day honeymoon at the Falls, were moved right back into the bridal suite at the General Brock Hotel recently when the Chamber of Commerce discovered they were the 7,000th couple to register for a honeymoon certificate.

Think Right—Eat Right—Live Right

Farm Incomes Show Signs Of Passing 1950 Returns

(The Financial Post)

OTTAWA.—Farm incomes for 1951 will remain firm and now show signs of surpassing last year's generally good levels, which brought \$2,223.5 millions cash income to farmers from the sale of their products. This is the consensus of Federal Agriculture Department and Dominion Bureau of Statistics forecasts.

There will be seasonal variations and there will be several off-setting factors, varying from district to district and always taking into consideration the big factor of the weather.

Some of the off-setting factors will include a reflection of general rises in costs, higher costs for farm machinery, higher fertilizer prices, possibly higher feed prices, higher fuel costs. These higher costs will vary from region to region but, notwithstanding them, the over-all level of farm income should continue to be stable throughout the year.

Cash income is expected to continue on the good side, although net income may be something else again depending on the amount of inventory carryover by the time fall arrives.

Last year's net income was good, for instance, but because of the high percentage of wheat carried over in storage. This meant a corresponding drop in cash income.

These are variables it is not possible to forecast at the moment. But over-all, the picture is bright. Here are some of the commodity high spots:

Wheat—Outlook for 1951-52 not completely clear but incomes already bolstered by \$65 millions final Ottawa payment under the British contract and \$120 millions distribution by Canadian Wheat Board. Canada is committed to supply about 227 million bushels under the third year of operation of International Wheat Agreement. Maximum and minimum prices for this wheat are \$1.50 and \$1.30 per bushel respectively.

The policies of the U.S. Government regarding wheat are expected to maintain world prices over the next year at least. The disturbed political situation in many areas of the world may also stimulate general build-up of emergency reserve stocks of wheat. On the other hand, wheat crops were good in most producing countries in 1950 and exportable surpluses are higher than year ago.

Feed Grains—The 1950-51 crop year net supply position of feed grains in relation to livestock population is expected to be about the same as 1950.

Fruits and Vegetables—Increase of production in all-tree fruits in 1951 is looked for. There will be lower potato prices, since the 1951 U.S. crop may exceed domestic requirements, driving prices in Canada down. Small fruit production will be about the same as 1950.

Meat—Some increase in the colonies is expected in 1951 as the result of higher home prices on the domestic market and lower costs for imported package types.

To Close Stores All Day Mondays

CHAPLIN.—There are no more Wednesday half holidays in Chaplin, A. E. Rude, a member of the village council, announced recently.

Due to the new 40-hour week regulations which have gone into effect on the C.P.R. it is now impossible to get goods delivered in Chaplin on Mondays, so merchants have decided that the best policy to follow is for them all to take the day off each Monday and remain open Wednesday afternoon. Other points along the line are expected to follow suit.

Merchants feel that by remaining closed all day Monday it will not be a great hardship to the majority of the farming population as most of these people come to town on Saturday, and knowing that there will be a two-day shutdown immediately following they will be able to stock up for an extra day.

SHORTAGE OF FREIGHTERS

REGINA.—The Saskatchewan wheat pool said a shortage of lake freighters is hampering movement of western Canada's 1950 grain crop to the seaboard.

There will be seasonal variations and there will be several off-setting factors, varying from district to district and always taking into consideration the big factor of the weather.

Some of the off-setting factors will include a reflection of general rises in costs, higher costs for farm machinery, higher fertilizer prices, possibly higher feed prices, higher fuel costs. These higher costs will vary from region to region but, notwithstanding them, the over-all level of farm income should continue to be stable throughout the year.

Cash income is expected to continue on the good side, although net income may be something else again depending on the amount of inventory carryover by the time fall arrives.

Last year's net income was good, for instance, but because of the high percentage of wheat carried over in storage. This meant a corresponding drop in cash income.

Last year's net income was good, for instance, but because of the high percentage of wheat carried over in storage. This meant a corresponding drop in cash income.

These are variables it is not possible to forecast at the moment. But over-all, the picture is bright. Here are some of the commodity high spots:

Wheat—Outlook for 1951-52 not completely clear but incomes already bolstered by \$65 millions final Ottawa payment under the British contract and \$120 millions distribution by Canadian Wheat Board. Canada is committed to supply about 227 million bushels under the third year of operation of International Wheat Agreement. Maximum and minimum prices for this wheat are \$1.50 and \$1.30 per bushel respectively.

The policies of the U.S. Government regarding wheat are expected to maintain world prices over the next year at least. The disturbed political situation in many areas of the world may also stimulate general build-up of emergency reserve stocks of wheat. On the other hand, wheat crops were good in most producing countries in 1950 and exportable surpluses are higher than year ago.

Feed Grains—The 1950-51 crop year net supply position of feed grains in relation to livestock population is expected to be about the same as 1950.

Fruits and Vegetables—Increase of production in all-tree fruits in 1951 is looked for. There will be lower potato prices, since the 1951 U.S. crop may exceed domestic requirements, driving prices in Canada down. Small fruit production will be about the same as 1950.

Meat—Some increase in the colonies is expected in 1951 as the result of higher home prices on the domestic market and lower costs for imported package types.

There will be seasonal variations and there will be several off-setting factors, varying from district to district and always taking into consideration the big factor of the weather.

Some of the off-setting factors will include a reflection of general rises in costs, higher costs for farm machinery, higher fertilizer prices, possibly higher feed prices, higher fuel costs. These higher costs will vary from region to region but, notwithstanding them, the over-all level of farm income should continue to be stable throughout the year.

Cash income is expected to continue on the good side, although net income may be something else again depending on the amount of inventory carryover by the time fall arrives.

Last year's net income was good, for instance, but because of the high percentage of wheat carried over in storage. This meant a corresponding drop in cash income.

These are variables it is not possible to forecast at the moment. But over-all, the picture is bright. Here are some of the commodity high spots:

OUR COMPLETE SHORT STORY

THE MEETING

"Even if Mommy Couldn't Come,
We Had Fun, Didn't We
Daddy?" Said The Little Girl.

By RUSSELL WILSEY

THE little girl skipped to keep pace with the tall, stooped man holding her hand. They made a pretty picture as they waved goodbye to the trolley man and started up the steps to the wrought-iron gates and into the field beyond.

"Will she be there, Daddy? Will she?" the girl asked anxiously, tossing her head about and trying to see past the head of the stone steps.

"We'll see," the man replied slowly, holding his lighted pipe away from his mouth with his free hand. "Perhaps, if you're good, we'll meet her today."

"Yes, yes, yes," the girl chanted sing-song, a yes for each stone step. Gaining the head of the steps, the pair halted to survey the rolling fields, interlaced with paths and dotted with groves of shade trees.

"This way, Daddy," the girl cried. "I remember, this is the way."

Leading the pair like a tugboat manoeuvring an ocean liner, the girl

moved down the path. It curved gently over a knoll, and then dropped down to a stand of elms. A stream bubbled through the grove and under a rustic bridge of rough wood. The child's eyes, out at the sight of the bridge, as if she hadn't known it would be waiting for them.

"See, the bridge, Daddy? See, right where we left it last Sunday. And look, Daddy, there's no one on the bench this time. Do you remember the man and the lady on the bench last week, Daddy? We had to wait until they were gone."

"Yes, yes," the man answered slowly.

They reached the bench, a fat log split in half, the flat sides up. The girl took her seat, her shoes swinging above the ground and her hands folded in her lap. The man, reaching behind him to grasp the edge of the bench with his palms, let his back recline against the elm.

"Is she coming, Daddy? Will she come this time?"

"We'll see. We have to wait here first and see."

"But I can go down by the water, can't I?" the girl said.

The man nodded. "But don't get your dress dirty."

But the girl hadn't heard. Her bright eyes had caught the flicking brush. She sat rigid, with mixed fright and delight, as the squirrel leaped to the ground and turned to rise up on his hind legs. Holding his tiny hands over his chest, he looked at her with a fixed stare, wiggling his nose in greeting.

The man had relaxed under the sun and the murmuring stream. His eyes had closed, and his pipe lay lazily out of the bowl.

The girl's hand stole up to touch her father's.

"Oh, our friend has arrived," the man said. He brought a crinkly bag of peanuts from his pocket and gave them to the girl. She slipped off the bench, squatting low till her chest folded on the ground, and began to feed the squirrel.

The man watched the other, yet eager to be on closer terms.

Already she has forgotten we came to meet someone, he thought. No wonder, she's so happy.

I should tell her the truth, he thought. But it is their truth, not mine. They will tell her when. And there will be no one to meet, then.

The arrival of two more squirrels depleted the girl's store of peanuts. Crumpling the bag, she hung over the railing, waiting. When the paper bag, sailing down the stream, arrived, she bombarded it with her pebbles, making airplane noises with her mouth.

The bag survived the attack and drifted out of sight beneath the bridge. The girl jumped to the other railing to wait for it. After it had passed her second position, she ran off the bridge and down to the water to recover it and set it off on another perilous journey.

The man on the bench closed his eyes, thinking, remembering, remembering another, older girl. It had been a sunny day, a day like this. She had been crying (for her freshly shaved mother, he recalled), and she had laughed when she came upon him feeding the squirrels. The pulse of life, he thought, each human soul a pulse beat in an endlessly beating heart.

By and by, when the shadows leaked into the grove, the girl came quietly to him. He took her hand and they started back, walking slowly. At the top of the hill, the man stopped to pick up the girl.

As she put her arms around his neck, she said, "Even if Mommy couldn't come, we had fun, didn't we, Daddy? And maybe Mommy will come next week, huh?"

"Yes, maybe next week," the man answered.

They joined the sparse stream of people walking in from the fields and filing through the gates. Still holding her in his arms, the man walked down the steps, down to the trolley car waiting like a faithful horse.

In the fields behind, some of the white stones and crosses caught the sun's last rays and sparkled like ground-held stars.

SOLO PEACH

A new yellow-fleshed peach, mid-season in maturity has recently been developed at the Experimental Station, Summerland, B.C., and is being recommended for trial in different peach growing areas in Canada. It has been named Solo and is described as large, well coloured, firm and good to above fair in dessert quality and is considered a promising canning variety. Officials say that its firmness should reduce wastage in the orchard, in the packing house and in the cannery.

Daring Rescue Attempt

Sliding down a line thrown from a hovering helicopter, a U.S. Coast Guardman (arrow) holds the head of a girl above water as the plane tows them through the heavy ocean surf to a beach near San Francisco. Unfortunately, resuscitation failed to revive the girl who had been caught by the tide while swimming. She was tentatively identified as Rose Agens, 17, of San Francisco.

U.S. Model Agent Claims Canadian Girls Are Prettier

NEW YORK.—At the risk of antagonizing two good neighbors, a model agent avows that Canadian girls are prettier and more "whole-some" than those in the United States.

"Furthermore, Canadian girls have far greater possibilities as models than those in the U.S.," said Gary J. Carter, who claims he can speak with competence since he, too, models in both countries.

To support his belief, Carter cites as superior "natural, wholesome beauty" such Canadian-born Holly-

WOOD STARS as Deanna Durbin, Yvonne de Carlo, Alexis Smith and Ann Rutherford.

And that's not to mention Norma Shearer and Mary Pickford, who also come from Canada," Carter said.

He held that the Canadian girls he named "on the whole have much more natural beauty and wholesomeness" than such native products as Rita Hayworth, Lana Turner and Betty Grable.

There's not much the U.S. girls can do about it either, he said, because "one important reason why Canadian girls are prettier and more wholesome is the climate."

Another, he said, is that Canadian girls "are more the outdoor type."

As examples of Canadian beauty he also mentioned Irene McInnes, Pears Hill and Audrey Murphy, who he said he tutored as models and who recently were chosen as the most beautiful women in Canada.

Carter said he has some figures—statistics that is—to prove Canadian girls are prettier.

"In the United States, I have accepted only about 100 out of every 1,000 girls who apply as model material," Carter said.

"In contrast, at least 300 out of 1,000 Canadian girls are accepted as model material."

Of the 100 accepted in the U.S., only five will become photographers' models in comparison to at least 30 Canadian girls, and only one U.S. lass will be a "top model" while four or five Canadian girls achieve that prominence, he said.

To Hunt Oil In Southeast Sask.

EDMONTON. — Socony-Vacuum Exploration company has announced it will carry out a widespread exploration programme for oil this year in southeast Saskatchewan.

The American firm has entered into an agreement with the Canadian team of Central Leduc Oil Limited, and Del Rio Producers' Unit, whereby Socony will undertake the programme.

Socony will locate two or three geophysical crews on the independent team's 392,000-acre Saskatchewan holdings, drilling one deep-test well.

Alaskan Whales Bring \$1 A Pound

FAIRBANKS, Alaska.—Prosperity and plenty have come to Alaska's Eskimos. They are celebrating an unprecedented catch of 11 whales.

They have caught inflation, too. At present inflated prices, whale meat, or muktuk, is sold among Eskimos, is bringing a dollar a pound in Eskimo villages where defense projects and oil exploration work has provided the natives with plenty of cash.

At those rates, a whale is estimated worth about \$10,000.

Mass Celebration

PRINCE ALBERT, Sask.—St. Patrick's orphanage here sets aside the second Sunday each month for a group celebration of the birthdays of children who were born in the month.

Nothing Wasted

VANCOUVER. — Officials of the B.C. research council have announced an experimental plant to produce fuel gas from wood waste will be built this year.

To Boost Sales

REGINA. — Some Regina used-car dealers are offering sets of dishes or 50 gallons of gasoline free in an effort to boost sales. They reported sales down by as much as 20 per cent as a result of the tighter credit restrictions. Bad spring weather also was a factor in sales to farmers.

Ingenious Rate

BRANFORD, Minn.—Parks Superintendent G. S. H. Adams said a small power rake, improvised from bits and pieces, saved the parks about 800 man-hours of labor this spring. Job of clearing leaves and debris from 16 miles of boulevards was completed in two weeks.

Renew Agreement

MOOSE JAW, Sask. — President George Vogan announced recently that Chicago Black Hawks of the National Hockey League have renewed their working agreement with Moose Jaw Canucks of the Western Canada Junior Hockey League for the 1951-52 season. Canucks have been a Chicago junior farm club since the 1948-49 campaign.

At Least Two Visitors

INDIAN HEAD, Sask. — Gus Eichel, confined to a hospital bed, has at least two visitors every day. They are his two dogs who place their paws on the window sill to greet their master.

To Hold Fish Derby

CARLYLE, Sask. — A boat and outboard motor will go to the winners of the "fish derby" to be held at Carlyle and Kenosae lakes in July. The event is sponsored by the Carlyle chamber of commerce.

Golden, B.C., Boasts Stolen Church, Bell

GOLDEN, B.C. — Newcomers might not know it, but when the bell of St. Paul's Anglican Church rings for Sunday services, it is tolling the story of a stolen church—and for that matter, a stolen bell.

Oldtimers like to tell the 50-year-old story of "Whistling Rufe" Kimpson and his business partner, J. C. Pitts. It seems that when the Canadian Pacific Railway decided to move its divisional point from the town of Donald to Revelstoke, the Synod of New Westminster decided to give St. Peter's Church at Donald to the Revelstoke parish.

But when the moving crew arrived at Donald, it found the church was gone. The story goes that "Whistling Rufe" and Mr. Pitts, who owned stores in Donald and Windermere, decided to move from Donald to Windermere, and since they were attached to their parish church, they instigated a plot to move it by flat car and boat to their new town.

As Thomas King, a Golden resident since 1899, recalls the circumstances with a smile, the church—and the bell—got as far as Golden when the secretary of the River Company decided that since the bell was stolen, there would be no harm in sealing it again.

So somehow it left the boat and took its place in the belfry of St. Paul's Anglican Church at Golden, and it has been calling the people to worship ever since.

Mrs. Alan Ladd Compares Blue Bonnet — Likes It Best!

Here's a hint from Frances Langford. Compare Blue Bonnet Margarine with any spread at any price. Like the famous, popular, you'll love Blue Bonnet's fresh, sweet flavor! Rich nutritional! True economy! Blue Bonnet is fine quality all-vegetable margarine. So buy Blue Bonnet and get all these — Flavor! Nutrition! Economy!

Blue Bonnet margarine is sold in two types — regular package with color water and also in the famous Yellow Quix bag for fast, easy color.

Perfect tea is so easy
to make with

"SALADA" TEA BAGS

Tasty? Sure, they're
MAGIC baked!

GINGER CUP PUDDINGS

Mix and sift twice, then sift into a bowl. 1½ c. concentrated milk, 2½ tps. Magic Baking Powder, ¼ tsp. salt, ¼ tsp. ground ginger, ¼ tsp. ground cinnamon, ¼ tsp. each of ground cloves and grated nutmeg. Cut in finely 5 tbs. chilled shortening and mix in ½ c. lightly-packed brown sugar. Combine 1 well-beaten egg, ¼ c. cornstarch and ¼ c. milk. Make a well in dry ingredients and add liquid; mix lightly with a fork. Two-thirds fill greased cup-cake dishes with batter. Bake in moderate oven, 350°, about 25 minutes, or cover each pudding with wet cookery parchment paper, tie down and steam for 25 minutes. Serve hot with vanilla sauce. Yield—6 servings.

Fashions

Lazybones Sewing

4674
5265
2-10

by Anne Adams

ONE day of sewing makes your whole summer's ironing easier. Mother! This dress opens flat, is done up in a jiffy. Your little girl can dress her own self too. Better make several!

Pattern 4674 comes in sizes 2, 4, 6, 8, 10. Size 4 frock, 3 yards 35-inch panty, ½ yard.

This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plain name, address and style number and send orders to:

Anne Adams Pattern Dept.,

Winnipeg Newspaper Union,

55 Front Street W., Toronto.

It's ready for you! Our new Anne Adams Summer Pattern Book! Read all about your new vacation wardrobe, how easy it is to sew! Glamorous fashions, illustrations of thrift patterns in all sizes. Send Twenty-five Cents for your copy today! Free Pattern of a Jr. Miss summer printed in book.
